

Shumaker & Sieffert, P.A., is a law firm devoted to the intellectual property needs of high tech companies. The firm's attorneys have current and intensive technical backgrounds in the software, electronics, telecommunications, chemical, mechanical, materials and medical device fields.

We offer extensive patent law knowledge and ongoing attention to legal trends, helping our clients navigate the most complex patent infringement issues. A unique combination of legal skill, technical knowledge and corporate experience helps us craft intellectual property strategies customized to serve our clients' business objectives.

Steve Shumaker and Kent Sieffert founded the firm in January 2001 to address their shared desire to focus exclusively on high quality patent prosecution, patent infringement counseling and licensing. Located in the Twin Cities, the firm has grown to serve clients across the U.S. and internationally.

We currently represent companies in a wide variety of industries including computer systems, medical devices, consumer electronics, software, coatings, chemicals and Internet services. Our clients range from established Fortune 500 companies to start-ups.

By 2012 we had grown from two partners to 70 employees, including 37 attorneys, one patent agent and five law clerks. Shumaker & Sieffert's attorneys have prosecuted more than 6100 U.S. patents, providing protection for inventions ranging from microprocessors to neurological stimulators.

Our attorneys also have extensive experience filing and prosecuting foreign patent applications. To aid our foreign practice, we maintain professional relationships with a variety of high quality patent law firms around the world. By January 2011, Shumaker & Sieffert had prosecuted over 1061 applications under the Patent Cooperation Treaty, and over 3100 national applications in individual countries all over the world.

*At Shumaker & Sieffert, we know your technology
and we have mastered the legal issues that impact it.*
